

Solta Medical Announces the U.S. Launch of The Clear + Brilliant® Touch Laser

March 08, 2021

System Utilizes Two Wavelengths to Provide a Customizable and More Comprehensive Treatment Protocol for Patients of All Ages and Skin Types

LAVAL, QC, March 8, 2021 /PRNewswire/ -- Bausch Health Companies Inc. (NYSE/TSX: BHC) ("Bausch Health") and its Solta Medical business, a global leader in the medical aesthetics market, today announced the U.S. launch of the Clear + Brilliant® Touch laser, the company's next generation Clear + Brilliant® laser. The Clear + Brilliant® Touch laser delivers a customized and more comprehensive treatment protocol by providing patients of all ages and skin types the benefits of two wavelengths. By seamlessly switching between two wavelengths with the Original and *Perméa*® handpieces, physicians can now more easily deliver a more complete treatment during a single appointment.

"The new innovative features of the Clear + Brilliant® Touch laser are designed to make the system easier and more convenient to use. Aesthetic providers can now more efficiently offer patients a complete treatment using two wavelengths by seamlessly switching between the Original and *Perméa*® handpieces during one appointment. We believe physicians and their patients will experience a real advantage with the new Clear + Brilliant® Touch laser," said Tom Hart, global vice president, Solta Medical. "As pioneers in the aesthetic market, Solta Medical has continued to evolve the Clear + Brilliant® technology to improve upon the efficiency and convenience that physicians and their patients have come to expect from Solta Medical."

In addition to offering easy access to both the Original and *Perméa*® handpieces in the compact system, the Clear + Brilliant® Touch laser also includes a user-friendly touchscreen, a simple training mode to simulate treatment without emitting laser energy and a smart charting assistant that automatically tracks treatment progress with the ability to export patient treatment charts.

"The Clear + Brilliant® laser is an easy-to-use and transportable system that has been a mainstay in my practice for years. The new system, the Clear + Brilliant® Touch laser offers even more versatility, for my patients. Having the option to use both wavelengths seamlessly during

one appointment will be a welcome addition to my practice and to my patients," said Jeffrey S. Dover, M.D., FRCPC, a board-certified dermatologist in Boston, MA.

About the Clear + Brilliant® Laser

Solta Medical's Clear + Brilliant® laser, which has been a pioneer in preventative* skin treatments and a leader in the laser treatment landscape since 2011, has delivered more than 2.5 million procedures. Supported by robust evidence-based data that includes more than 15 clinical studies, the Clear + Brilliant® laser uses fractional laser technology to create structural and functional changes to the skin, helping to prevent* the early signs of aging, maintain youthful looking skin and improve the skin's overall appearance.
