

Salix Supports Liver Awareness Month With New Educational Initiatives

October 05, 2020

Educational Online Resource Offers Tools for Early Detection of Overt Hepatic Encephalopathy in Chronic Liver Disease Patients

BRIDGEWATER, N.J., Oct. 5, 2020 /PRNewswire/ -- Bausch Health Companies Inc. (NYSE/TSX: BHC) and its gastroenterology business, Salix Pharmaceuticals ("Salix"), one of the largest specialty pharmaceutical companies in the world committed to the prevention and treatment of gastrointestinal diseases, today announced the launch of a series of educational initiatives and resources aimed to reach health care providers and their patients with chronic liver disease. As part of Salix's support for Liver Awareness Month, the company has launched a new, digital destination, "LiverHEalthNow," which offers tools to support the management of Overt Hepatic Encephalopathy (OHE) in chronic liver disease patients.

According to the American Liver Foundation,¹ approximately 30 million people in the U.S. have some form of liver disease.² Cirrhosis is a long-term chronic liver disease.³ OHE is a primary complication of cirrhosis.⁴

"At Salix, we are committed to raising awareness of OHE, its risk factors and the need for early detection given that OHE patients are at a high risk for hospital readmission and short survival rates,"^{5,6} said Robert Spurr, president, Salix Pharmaceuticals. "In addition to our longstanding partnerships with advocacy and professional organizations, we're proud to launch our new online LiverHEalthNow resource, which is designed to strengthen physician-patient communication, and hopefully, help reduce the burden of a delayed diagnosis in OHE patients."

Salix's Liver Awareness Month initiatives include:

- **LiverHEalthNow**

A new, online resource designed to support the management of patients suffering from chronic liver disease and OHE. LiverHEalthNow offers tools to help screen patients, define an OHE episode and coordinate care. For more information, visit [LiverHEALTHnow.com](https://www.liverhealthnow.com).

- **Raising Awareness Through Social Media**

Salix will join the national conversation about OHE through social media, leveraging its Twitter and LinkedIn platforms to galvanize awareness of OHE's prevalence and symptoms. To take part, connect with Salix on [Twitter](#) and [LinkedIn](#).

- **Advocacy Support**

As a corporate council member of the American Liver Foundation (ALF), Salix is a sponsor of The American Debates, The Progression of Liver Disease campaign and Virtual Liver Life Walks.

About Salix

Salix Pharmaceuticals is one of the largest specialty pharmaceutical companies in the world
